's ALL ABOUT THE DETAILS

How Do You Take A LARGE, unmanageable outdoor area and turn it into refined spaces for the whole family? That was the dilemma facing this discerning New York family. They were determined to have their **BACKYARD SERVE MULTIPLE PURPOSES:** a place to swim, a section for dining, and an area set aside for pure relaxation. And they wanted to do all this while preserving a sense of open space.

By using EP Henry Pavers and Walls in contrasting **COLORS AND SHAPES,** the homeowners were able **TO DIVIDE THEIR SPACE** and **DEFINE INDIVIDUAL OUTDOOR ROOMS.** For the poolside deck, they used Village Square® Pavers in Harvest Blend, randomly installed, edging it with contrasting colored pavers. That was how they marked the end of the pool and the beginning of the outdoor kitchen area of DevonStone® Gaelic® with Cast Veneer Stone LedgeStone in Durango. Whether you want the feeling of one additional outdoor room, or many, EP Henry can help you create your outdoor living floor plan.

LOOK HOW BEAUTIFULLY

EP Henry's Cast Veneer Stone and Double Sided Coventry® Wall work well together in this seat wall.
